FROM THE HIRAM FIRE DEPARTMENT

Bedrooms are a common area of fire origin. Many of these fires are caused by misuse or poor maintenance of electrical devices, such as overloading extension cords or using portable space heaters too close to combustibles. Many other bedroom fires are caused by children who play with matches and lighters, careless smoking among adults, and arson. Please take care and also remember to sleep with bedroom doors closed to protect from fires outside of the bedroom as well.

FROM THE VILLAGE ADMINISTRATOR

Hiram Village street paving will begin mid-August. Karvo Companies, Inc. has been awarded the contract for the resurfacing of the Village streets including Constance Ave. located off Winrock. A grant/loan through the Ohio Public Works Commission is making this project possible.

Please be prepared for lane closings and temporarily blocked streets as this project progresses.
