Project Name	Hiram Village Sidewalks (Handicapped Accessible)					
Location	Hiram Village, Portage County, OH					
Termini	Begins and ends at the Village Corporate Limits on SR 82, SR 305, and SR 700 on both sides of each road.					
Length	Approximately 20,000 linear feet of sidewalks.					
Purpose and Need	Currently our sidewalks are too narrow for wheelchairs, we have few ramps, and many areas have no sidewalks at all. The existing sidewalks are not ADA compliant, and are in such disrepair that our handicapped students are regularly complaining. We need these sidewalks, especially for those students mentioned, and the autistic residents of Hiram Farm.					
Type of Work/Description of Improvement	See above
